

# 9 Export Essentials TOP TIPS

## 1

**Ensure your business** is clear on what it needs to do at the detail level. This is driven by commodity code

**Ensure you have** a GB EORI reference

## 2

## 3

**Ensure your importer** can receive the goods - EU EORI

**By defining the Commodity code**, the detail is clear on the need for special licenses or declarations

## 4

## 5

**You are clear** on how to make customs declarations and fully understand the implications

**Ensure your haulage company** or your business (if relevant) has obtained a relevant and compliant Kent access permit. Without this, you will not be able to export.

## 6

## 7

**Make sure that your invoice and other documents** are fully compliant and complete, as they must travel with the goods.

**Ensure you liaise fully** with your B2B customer as they may also require documentation to Import. This will save time and avoid possible issues or refusal at the border.

## 8

## 9

**Make sure you keep clear records** as you will need to rely on them later for several uses, and Tax officials may request them
