

# International tax solutions

Our team specialises in cross border tax advice and regularly assists clients both leaving and returning to the UK from both an advisory and compliance perspective.

## What we can support you with:

### Annual UK tax compliance

- Seconed employees
- Non-resident landlords
- Dual tax residents
- Non-resident directors
- Non UK resident with UK income

### Bespoke UK tax residence advice

Whether you are leaving the UK, returning after a period of time abroad or are a business commuter we can provide tailored advice to ensure compliance and simplicity.

### Employer solutions

Are you an employee being sent abroad to work for your employer or a company looking to send your employee overseas?

We can assist from a tax perspective to ensure a smooth transition and ensure that there are no unwelcome surprises along the way.

Employers often do not understand the risks of operating in an overseas jurisdiction, particularly around payroll and potential exposure to corporation tax overseas.

### Non-resident directors

Are you a director of a UK company that resides overseas? Just because you are a tax resident overseas does not mean that you aren't liable to UK Income Tax.

### Complex compliance

We have a number of clients that have complex tax residence positions. Accurately reporting this and claiming the correct foreign tax credits, etc. is crucial to ensure that an individual does not overpay tax.

Our work also covers considering double tax treaties to determine if clients are able to claim exemptions from UK tax, and requesting certificate of tax residence from HMRC so that clients do not suffer

### Non-resident Capital Gains Tax

For those individuals that do not live in the UK, the rules around the availability of relief and compliance are far stricter.

BHP regularly advises on this and can provide proactive support.

### UK Inheritance Tax

We're well placed to advise on complex UK Inheritance Tax problems for our clients. Losing a UK domicile is an incredibly difficult thing to do. We can advise on what your liability is and any opportunities to mitigate that liability. If the rules change, we can advise how they will impact you.

If you have any questions about this service or need any advice, get in touch with our expert team.
